ABOUT VERBATIM

OUR BRAND STORY

At Verbatim, we believe that technology is about improving your everyday life. For over 50 years, we have worked to build a future that seamlessly integrates technology in ways that improve how people everywhere live, work and play.

Throughout those 50 plus years, we have continued to innovate and develop not only our products but also our brand experience. Now, in 2026, it is time to continue that evolution. Our new brand is designed to have true global relevance for the digital era.

The idea behind the new brand was to provide a modern, clean and functional logo and V symbol, fit for the digital first world. We chose a geometric typeface, and strong colour scheme, evolving from the red and blue used in the Verbatim logo throughout the years.

Along with the brand mark, we have also developed our tagline. Technology you can Trust is still key to our company ethos, but 'Anywhere. Everyday.' gets to the heart of the Verbatim product offering. We aim to create a positive connection to everyday life for our consumers. By making this connection we are also delivering on the promise of 'trust' by showing that customers can rely on us as part of their everyday life. New imagery and messaging follow this example. Focusing on showing everyday modern life at work and play and the human emotion which the product provides. These are simple and impactful, getting the message across quickly. Ideal for the digital world.

We hope you like our new branding, building on our core values for an exciting future.

ACCESSORIES

Verbatim offers an extensive line of innovative, reliable, and affordable accessories designed to enhance the experience of your favourite devices and to enable work on the go.

PORTABLE MONITORS

Portable Touchscreen Monitor Full HD 1080p

- Portable monitor with Full HD resolution of 1920 x 1080 and 16.7M colours
- Supports capacitive 10-point multi-touch; simply connect the monitor to your device using a USB-C® cable
- IPS Panel incl. full viewing angle of 178° and 16:9 screen ratio
- Solid and durable aluminium housing
- HDR technology improves picture quality creating a fantastic viewing experience
- Great compatibility for work/traveling/gaming: Connect the portable monitor to your PC/Mac/Tablet/Phones/Consoles with USB-C or HDMI

PART NO	DESCRIPTION
49591	PMT-14 Portable Touchscreen Monitor – 14"
49592	PMT-15 Portable Touchscreen Monitor – 15.6"
49593	PMT-17 Portable Touchscreen Monitor – 17.3"

Portable Monitor Full HD 1080p

- Portable 14" monitor with Full HD resolution of 1920 x 1080 and 16.7M colours
- IPS Panel incl. full viewing angle of 178° and 16:9 screen ratio
- HDR technology improves picture quality creating a fantastic viewing experience
- Great compatibility for work/traveling/gaming: Connect the portable monitor to your PC/Mac/Tablet/Phones/Consoles with USB-C or HDMI
- One Cable Solution: Plug and play setup of compatible devices via USB-C connection

PART NO	DESCRIPTION
49590	PM-14 Portable Monitor – 14"

Portable Monitors - Light Series

- IPS panel with ultra-wide 178° viewing angles and 16:9 aspect ratio
- HDR technology for enhanced picture clarity
- Lightweight and ultra-slim for maximum portability
- USB-C plug & play – one cable for video, touch, and power
- Integrated stereo speakers and 3.5mm audio jack
- Foldable stand for convenient setup and flexible viewing angles
- Compatible with PCs, smartphones, tablets, and more
- Capacitive 10-point multi-touch for intuitive control (32405, 32406)
- Non-touch model (32406)
- Perfect for mobile professionals, hybrid workers, and students who need a lightweight, travel-ready dual-screen solution

PART NO	DESCRIPTION
32405	Portable Touchscreen Monitor Light Series - 14"
32407	Portable Touchscreen Monitor Light Series - 15.6"
32406	Portable Monitor Light Series - 15.6"

Dual Portable Monitor 15.6"

- Dual Full HD 15.6" IPS screens (1920 × 1080 resolution each)
- 178° wide viewing angle with 16:9 aspect ratio
- HDR support for improved contrast and colour accuracy
- Ultra-slim design with integrated 1W stereo speakers
- Supports Extend*, Duplicate, and Ultra Display modes (*Windows only)
- VESA 75x75 mm mount compatible
- Auto-rotation support for top screen when folded
- Lightweight and portable with protective neoprene sleeve
- USB-C and Mini HDMI connectivity
- Ideal for multitasking, presentations, and remote work setups

PART NO	DESCRIPTION
32408	Dual Portable Monitor - 15.6"

Portable Touchscreen Monitor 13.3"
WUXGA Resolution with Wireless Power Display

- Portable Touchscreen Monitor with WUXGA Resolution of 1920 x 1200 and 16.7M colours
- Wireless Power Supply with 5000mAh Power Bank
- IPS Technology – full viewing angle of 178° and 16:10 screen ratio
- High Dynamic Range (HDR) – Enhanced contrast and brightness for more realistic content
- Sleek, durable aluminium housing
- Integrated Speaker
- Multi-Touch Display – Intuitive touch control for seamless interaction.

PART NO	DESCRIPTION
32087	Portable Touchscreen Monitor WUXGA Resolution & Wireless Power – 13.3"

Portable Touchscreen Monitor 14"
Full HD 1080p with Wireless Power Supply

- Portable Touchscreen Monitor with wireless power supply including a 5000mAh Power Bank
- Full HD Resolution 1920 x 1080p and 16.7 million colours
- IPS Technology – full viewing angle of 178° and 16:9 screen ratio
- High Dynamic Range (HDR) – Enhanced contrast and detail for more lifelike content
- Lightweight housing, ideal for travel
- Integrated Speaker
- Multi-Touch Display – Smooth, responsive touch interaction for effortless control

PART NO	DESCRIPTION
32088	Portable Touchscreen Monitor Full HD 1080p & Wireless Power – 14"

WEBCAMS

1080p Full HD Webcam

- Full HD 1080p resolution
- Built-in full directional high sensitivity and low noise microphone
- Manual focus from 30cm to infinity
- Integrated microphone
- USB Plug & Play

PART NO	DESCRIPTION
66614	Full HD 1080p Webcam

1080p Full HD Auto Focus Webcam

- Full HD 1080p resolution
- Autofocus from 7cm to infinity with auto white balance
- USB Plug & Play
- Integrated microphone
- Automatic low light correction

PART NO	DESCRIPTION
66631	Full HD 1080p Autofocus Webcam

MICE

Silent Ergonomic Wireless LED Mouse

- Truly silent mouse featuring Silent Technology, silent click switches, and rubber covers
- Ergonomic design with thumb support lets you work all day with ease
- Adjustable DPI button – easily switch between 800, 1300 and 1600 DPI
- Side back/forward buttons – easily navigate between pages in your browser
- 2.4Ghz wireless connection for lag-free performance
- Blue LED technology allows for use on virtually any surface with precision and control
- Plug-and-forget nano receiver connects mouse to computer

Colours available:

PART NO	DESCRIPTION
70242	Silent Ergonomic Wireless LED Mouse - Graphite
70243	Silent Ergonomic Wireless LED Mouse - Red
70244	Silent Ergonomic Wireless LED Mouse - Blue

Silent Wireless LED Mouse

- Truly silent mouse featuring Silent Technology, silent click switches, and rubber covers
- 2.4Ghz wireless connection for lag-free performance
- Blue LED technology allows for use on virtually any surface with precision and control
- Ergonomic design and comfort grip for ease-of-use
- Plug-and-forget nano receiver connects mouse to computer

Colours available:

PART NO	DESCRIPTION
99769	Silent Wireless LED Mouse - Graphite
99770	Silent Wireless LED Mouse - Blue

99780	Silent Wireless LED Mouse - Red

GO NANO Wireless Mouse

- 1600 dpi three button Nano wireless mouse
- Plug-in Nano receiver - small enough to leave connected
- 2.4GHz RF wireless technology
- Smooth, contoured design provides comfort and control
- Available in three colours - Black, Hot Pink and Caribbean Blue

Colours available:

PART NO	DESCRIPTION
49042	GO NANO Wireless Mouse Black
49043	GO NANO Wireless Mouse Hot Pink
49044	GO NANO Wireless Mouse Caribbean Blue

KEYBOARDS

Wireless Keyboard & Mouse Combo

Compact Wireless Keyboard and Mouse Combo – 32412

- Silent keyboard keys and silent mouse clicks
- Compact 81-key keyboard with low-profile design
- Blue LED optical mouse with 1600 DPI precision
- One 2.4GHz nano receiver connects keyboard and mouse
- Receiver storage inside mouse for easy transport
- Made with recycled plastic (keyboard 65%, mouse 85%)
- Plug-and-play via USB-A receiver
- Compatible with Windows, macOS, Chrome OS and Linux

Silent Wireless Keyboard and Mouse – 32413

- 104-key layout with multimedia hotkeys for quick control
- 4-button design with 3-level DPI (800/1200/1600) for easy sensitivity switching
- A single nano USB receiver connects both devices; stable range up to 10 m. Receiver stores inside the mouse for travel.
- Keyboard and mouse housings made with 85% recycled plastic
- Auto sleep after 10 sec. of inactivity
- Plug-and-play on Windows, macOS, and Linux

For work.

For play.

Headsets & Headphones

Verbatim's range of quality headsets let you upgrade your audio experience without breaking the bank. Whether you're a gamer, music lover, remote worker, or a student, we've got the perfect headset to match your needs. Say goodbye to compromising on quality and comfort – Verbatim headsets offer the best of both worlds.

Why choose Verbatim headsets?

Crystal Clear Sound: Immerse yourself in rich, detailed audio that brings your entertainment to life. From heart-pounding bass to crisp highs, you won't miss a single beat.

Gamer's Delight: Gain a competitive edge with precise audio cues that help you locate enemies and enhance your gaming strategy. Your victories have never sounded so sweet!

Seamless Communication: Stay connected with friends, colleagues, and teammates. Our headsets boast high-quality microphones, making your voice come through loud and clear.

Smart Features: Enjoy convenient features like in-line controls, adjustable headbands, and comfortable ear cushions that make extended wear a breeze.

Universal Compatibility: Whether you're gaming on a console, working on a laptop, or streaming content on your phone, our headsets work seamlessly across devices.

Unbeatable Value: Elevate your audio experience without straining your budget. Our headsets offer premium features at prices that won't break the bank.

Don't compromise on quality or comfort when you can have it all. Check out our full range and immerse yourself in a world of audio excellence without the hefty price tag.

Anywhere. Everyday.

HEADSETS

Classic Headset with USB-C

- USB-C Connectivity
- Lightweight body
- In-line microphone
- 3.5mm audio jack connector
- Great bass and treble reproduction
- Soft foam ear cushions
- Modern design and colour options

PART NO	DESCRIPTION
67031	Classic Stereo Headset with USB-C – Black

Classic Stereo Headset

- Lightweight body
- In-line microphone
- 3.5mm audio jack connector
- Great bass and treble reproduction
- Soft foam ear cushions

Redefine the way you sync and charge.

SYNC & CHARGE CABLES

Essentials Sync & Charge 3-in-1 Cable

- One cable, 3 connectors- interchange USB-C, Lightning and microUSB connectors
- 18W fast charging
- Up to 480 Mbps for transferring photos, videos, and files
- 1m length ideal for home, office and travel
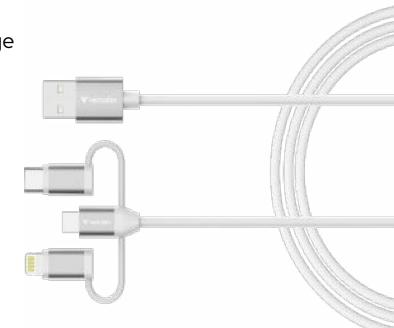

PART NO	DESCRIPTION
32394	Essential Sync & Charge Cable USB-C®/Lighting/microUSB to USB-A 100cm

Sync & Charge 2-in-1 USB-C®/Lighting to USB-C® Cable

- 2-in-1, USB-C®/Lighting to USB-C® Cable
- Innovative slide mechanism
- Supports PD fast-charging up to 60W (PPS up to 25W)
- DuPont™ Kevlar® inside

PART NO	DESCRIPTION
66974	Sync & Charge Cable USB-C®/Lighting to USB-C® 120cm

C-TO-C CABLES

C-TO-A CABLES

Sync & Charge USB4 Cables

- USB-C® to USB-C® USB4 Cable
- Supports PD 3.1 charging up to 240W
- Data transfer up to 40Gbps
- DuPont™ Kevlar® inside
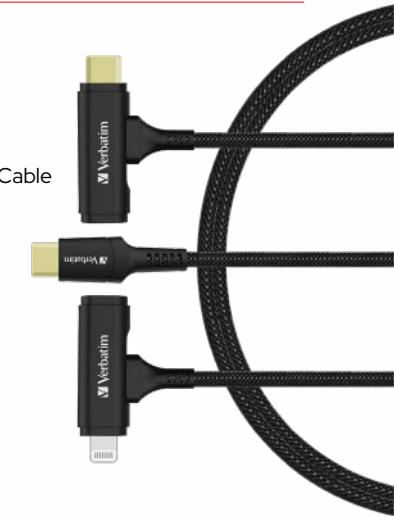

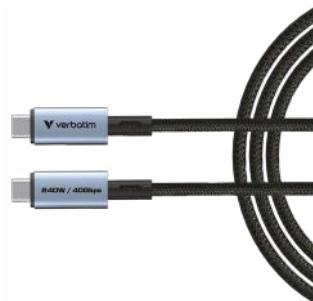

PART NO	DESCRIPTION
31847	Sync & Charge Cable USB-C® to USB-C® USB4 240W 40Gbps 120cm
31849	Sync & Charge Cable USB-C® to USB-C® USB4 Display 240W 40Gbps 120cm

Sync & Charge Magnetic Cables

- USB-C® to USB-C® Cable
- Magnetic design keeps cables tidy and tangle-free
- High-Speed Data Transfer: Transfer files, photos, and videos in seconds with up to 480Mbps speed
- Supports PD charging up to 100W

Colours available:

PART NO	DESCRIPTION
31854	Sync & Charge Magnetic Cable USB-C® to USB-C® 100W 120cm Grey
31863	Sync & Charge Magnetic Cable USB-C® to USB-C® 100W 120cm Black

Sync & Charge USB-C® to USB-A Cables

- USB-C® to USB-ACable
- Supports 18W Quick Charge (QC 3.0)
- High-Speed Data Transfer: Transfer files, photos, and videos in seconds with up to 480Mbps speed
- DuPont™ Kevlar® inside

PART NO	DESCRIPTION
31843	Sync & Charge Cable USB-C® to USB-A 18W 120cm

Sync & Charge USB-C® to USB-C® Cables

- USB-C® to USB-C® Cable
- Supports PD charging up to 100W / 240W
- DuPont™ Kevlar® inside

PART NO	DESCRIPTION
31848	Sync & Charge Cable USB-C® to USB-C® 100W Power Display 120cm
66820	Sync & Charge Cable USB-C® to USB-C® 240W 120cm
66821	Sync & Charge Cable USB-C® to USB-C® 240W 200cm

Essential Sync & Charge USB-C® to USB-C® Cables

- USB-C® to USB-C® Cable
- up to 60W fast charging
- High-Speed Data Transfer: Transfer files, photos, and videos in seconds with up to 480Mbps speed
- 1m cable offers reach without clutter

PART NO	DESCRIPTION
32391	Essential Sync & Charge USB-C® to USB-C® Cable 100cm 2pk- Black & White

Essential Sync & Charge USB-C® to USB-A Cables

- USB-C® to USB-A® Cable
- up to 18W fast charging
- High-Speed Data Transfer: Transfer files, photos, and videos in seconds with up to 480Mbps speed
- 1m cable offers reach without clutter

PART NO	DESCRIPTION
32393	Essential Sync & Charge USB-C® to USB-A® Cable 100cm 2pk- Black & White

LIGHTNING CABLES

USB-C® to USB-A Cables

- Compatible with Type C devices
- Supports up to 3A current charging
- Supports QC 2.0 and 3.0
- Data transfer rate up to 480Mbps
- Material: PVC.

PART NO	DESCRIPTION
66584	Sync & Charge USB-C to A Cable 1m – White

Sync & Charge USB-C® to Lightning Cables

- USB-C® to Lightning Cable
- Apple MFi certified
- Supports 60W PD Fast charging
- High-Speed Data Transfer: Transfer files, photos, and videos in seconds with up to 480Mbps speed
- DuPont™ Kevlar® inside

PART NO	DESCRIPTION
31844	Sync & Charge Cable USB-C® to Lightning 60W 120cm

Lightning to USB-A Cables

- Durable, soft-touch rubber coating
- Apple MFi certification ensures quality and charge compatibility with applicable Apple devices.
- Compatible with iOS devices with Lightning connector
- 12W fast charging
- Data transfer rate up to 480Mbps

PART NO	DESCRIPTION
66581	Sync & Charge Lightning Cable 1m – White
31865	Sync & Charge Lightning Cable 1.5m – White

MICRO USB CABLES

USB-A to microUSB Cables

- Compatible with microUSB devices
- Supports up to 3A current charging
- Supports QC 2.0 and 3.0
- Data transfer rate up to 480Mbps
- Material: PVC.

PART NO	DESCRIPTION
66579	Sync & Charge USB-A to microUSB Cable 1m – White

Essential Sync & Charge USB-C® to Lightning Cables

- USB-C® to Lightning Cable
- up to 27W PD fast charging
- High-Speed Data Transfer: Transfer files, photos, and videos in seconds with up to 480Mbps speed
- 1m cable offers reach without clutter

PART NO	DESCRIPTION
32392	Essential Sync & Charge USB-C® to Lightning Cable 100cm 2pk- Black & White

HDMI CABLES

HDMI Cable

- Supports 4K and Full HD 1080p – Crisp, clear visuals with high-resolution support.
- High-Speed Data Transfer – Ensures smooth video playback and low-latency performance.
- Gold-Plated Connectors – Enhances signal strength and prevents corrosion.
- Universal Compatibility – Works with TVs, monitors, gaming consoles, and streaming devices.

PART NO	DESCRIPTION
66577	HDMI Cable 100cm 1.4b – Black

PAIR THE RIGHT CABLE WITH YOUR DEVICE

When it comes to charging your devices or transferring data, the quality of your USB-C cable, charger, and digital device can make or break your experience. A mismatched setup can lead to slow charging, poor efficiency, and reduced data speeds.

THE IMPACT OF A POORLY MATCHED CABLE

If you've ever been frustrated by slow charging, it's likely that your charger and cable weren't working in sync. Here's what happens when they don't match:

Slow charging | Overheating and wear | Inefficient power delivery

If you're using an External SSD for video editing, gaming, or backups, your USB-C cable also plays a critical role in data speeds. A poorly matched cable can result in:

Slow file transfers | Reduced performance

THE RIGHT PAIRING: USB-C CABLES AND GAN CHARGERS

- For high-powered laptops and gaming setups, pair a 100W or 240W USB-C Cable with a 100W GaN Charger to ensure fast, efficient charging.

- For multi-device charging, go with a 100W or 65W GaN Charger. Pair it with several USB-C 100W Cables to ensure your devices are charging at optimal speeds.

- For reduced cable clutter and stress-free travel, try the 100W Magnetic USB-C to USB-C Cable. Its magnetic design allows the cable to coil neatly, making storage effortless.

THE BEST SETUP FOR MAXIMUM DATA TRANSFER SPEEDS

- Use a high-speed USB-C cable (such as the 240W USB-C to USB-C Cable) with a USB 3.2 Gen 2×2 external SSD (such as Verbatim's Metal Mini SSD) to achieve blazing-fast transfer speeds.

- Pair with a powerful 100W GaN charger to ensure uninterrupted power delivery for your laptop during data transfers.

- Future-proof your setup by choosing a USB4 Sync & Charge Cable to ensure compatibility with multiple devices for seamless backups and storage expansion.

MULTIPORT HUBS

USB-C® Pro Multiport Hub - 5 Ports

- Transform a single USB-C port into five versatile ports to connect to a wide range of devices

- 1 x HDMI, 1 x RJ45, 2 x USB-A 3.2 Gen1, 1 x USB-C PD

- USB 3.2 Gen 1 technology ensures fast data transfer speeds

- HDMI interface supports up to 4K output video from your computer to a 4K monitor

- Provides USB-C power charging - easily charge your USB-C device whilst still using other ports

HDMI™	Gigabit Ethernet	2 x USB 3.2 Gen1	USB-C® Connector for Power Charging
PART NO	DESCRIPTION
32150	USB-C® Pro Multiport Hub CMH-05 5 Ports HDMI | RJ45 | 2 x USB-A | USB-C PD

USB-C® Pro Multiport Hub - 8 Ports

- Transform a single USB-C port into eight ports including HDMI and SD card readers for comprehensive connectivity
- 2 x HDMI, 3 x USB-A 3.2 Gen1, 1 x SD card slot, 1 x microSD card slot, 1 x USB-C PD
- Dual HDMI output enables connection to multiple monitors for an expanded workspace
- USB 3.2 Gen1 technology ensures fast data transfer speeds
- Integrated SD and microSD memory card slots
- Provides USB-C power charging - easily charge your USB-C device whilst still using other ports

USB-C®

PART NO	DESCRIPTION
32151	USB-C® Pro Multiport Hub CMH-08 8 Ports 2 x HDMI | 3 x USB-A | SD | microSD | USB-C PD

3 x USB 3.2 Gen1   SD/microSD   USB-C® Connector for Power Charging

USB-C® Pro Multiport Hub - 9 Ports

- Transform a single USB-C port into nine ports including USB-C and USB-A with different generations for maximum device compatibility
- 1 x HDMI, 1 x RJ45, 2 x USB-C 3.2 Gen2, 1 x USB-A 3.2 Gen2, 2 x USB-A 3.2 Gen1, 1 x SD card slot, 1 x microSD card slot
- 4K resolution HDMI video supported
- Benefit from a stable, wired network connection with the gigabit ethernet port
- USB 3.2 Gen 2 technology ensures fast data transfer speeds
- Integrated SD and microSD memory card slots

USB-C®

PART NO	DESCRIPTION
32152	USB-C® Pro Multiport Hub CMH-09 9 Ports HDMI | RJ45 | 2 x USB-C | USB-A 3.2 Gen2 | 2 x USB-A 3.2 Gen1 | SD | microSD

HDMI™   Gigabit Ethernet   2 x USB 3.2 Gen2   USB 3.2 Gen2   2 x USB 3.2 Gen1   SD/microSD
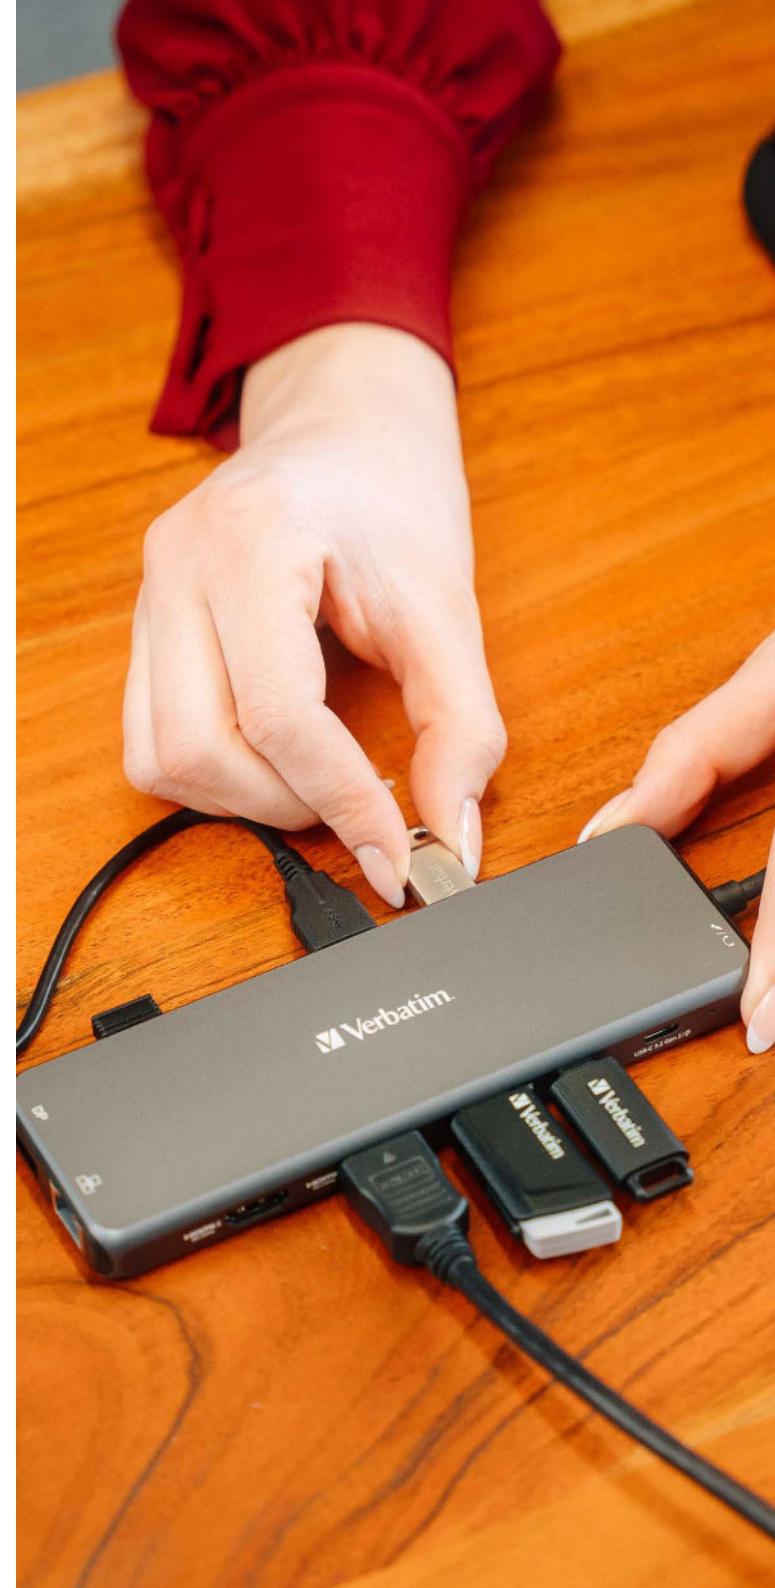

USB-C® Pro Multiport Hub - 13 Ports

- Transform a single USB-C port into thirteen ports including dual HDMI, High speed PD ports and gigabit ethernet connection
- 2 x HDMI, 1 x DisplayPort, 1 x RJ45, 3 x USB-A 3.2 Gen 1, 1 x USB-A 3.2 Gen 2, 2 x USB-A 2.0, 1 x Audio, 2 x USB-C PD
- Triple 4K video output
- Dual HDMI outputs capable of handling up to 8K resolution for stunning visuals
- Gigabit ethernet port for high speed, wired internet acess
- Dual USB-C Power Delivery - charge devices while using the hub wth pass-through charging

USB-C®

| Display port | Gigabit Ethernet | USB 3.2 Gen2 | 3 x USB 3.2 Gen1 | 2 x USB 2.0 | 3,5mm Audio | 2 x USB-C® Connector for Power Charging |

* Receiver requires HDMI connection - HDMI cable not included.

WIRELESS PRESENTER

Agenda Wireless Presenter

- Dual USB-A & USB-C Receiver: Seamlessly connects to Mac, PC, and Android devices for universal compatibility
- Projects a sharp, clear laser up to 100 meters, perfect for large rooms
- Easily navigate slides, toggle full/black screen, and scroll pages with responsive buttons
- No drivers or setup required – just plug in and present instantly
- Built-in rechargeable battery with USB-C charging eliminates the need for disposable batteries
- Premium aluminum alloy with frosted texture and magnetic dongle storage

PART NO	DESCRIPTION

GAN CHARGERS

Tired of lugging multiple bulky chargers around to recharge your array of power-hungry digital devices? Or looking to purchase a single charger that can fast-charge multiple devices simultaneously? Then you should consider a Verbatim GaN charger.

Featuring a compact size and increased power output enabling you to fast charge multiple devices simultaneously, our GaN chargers are compatible with the latest digital devices and come with a host of features that make them the ultimate charging solution.

Verbatim's GaN Charger range feature housing constructed from 95% Post Consumer Recycled plastic. This recycling process reduces the need for virgin plastic production and diverts plastic waste from landfill and oceans, contributing to a more sustainable and eco-friendly approach to plastic use.

35W 2-Port GaN Wall Charger

- Supports charging of up to 2 devices simultaneously
- 1 x USB-C® PD 3.0 35W, and 1 x USB-A QC 3.0
- Supports super-fast charging with USB Power Delivery 3.0, PPS and Quick Charge 3.0
- Made with high-quality, flame-resistant materials
- 95% Recycled Plastic Housing

PART NO	DESCRIPTION
67015	35W 2-Port GaN Wall Charger 1 x USB-C® PD 35W / 1 x USB-A QC 3.0

65W 3-Port GaN Wall Charger

- Supports charging of up to 3 devices simultaneously
- 2 x USB-C® PD 3.0 65W, and 1 x USB-A QC 3.0
- Supports super-fast charging with USB Power Delivery 3.0, PPS and Quick Charge 3.0
- Made with high-quality, flame-resistant materials
- 95% Recycled Plastic Housing

PART NO	DESCRIPTION
67016	65W 3-Port GaN Wall Charger 2 x USB-C® PD 65W / 1 x USB-A QC 3.0

100W 4-Port GaN Wall Charger

- Supports charging of up to 4 devices simultaneously
- 2 x USB-C® PD 3.0 100W, 1 x USB-C PD 3.0 65W, and 1 x USB-A QC 3.0
- Supports super-fast charging with USB Power Delivery 3.0, PPS and Quick Charge 3.0
- Made with high-quality, flame-resistant materials
- 95% Recycled Plastic Housing

PART NO	DESCRIPTION
66966	100W 4-Port GaN Wall Charger 2 x USB-C® PD 100W / 1 x USB-C® PD 65W / 1 x USB-A QC 3.0

140W 4-Port GaN Wall Charger

- Supports charging of up to 4 devices simultaneously
- 2 x USB-C® PD 3.0 140W, 1 x USB-C PD 3.0 20W, and 1 x USB-A QC 3.0 18W
- Supports super-fast charging with USB Power Delivery 3.0, PPS and Quick Charge 3.0
- Made with high-quality, flame-resistant materials
- 95% Recycled Plastic Housing

PART NO	DESCRIPTION
67035	140W 4-Port GaN Wall Charger 2 x USB-C® PD 140W / 1 x USB-C® PD 20W / 1 x USB-A QC 3.0

CAR CHARGERS

Charge 'n' Drive Qi2 Magnetic Wireless Car Charger

- Qi2 technology: charges iPhone 16/15/14/13/12 and Qi2-compatible Android devices
- Cooling system prevents overheating
- Secure magnetic hold with built-in 16 NdFeB magnets
- Flexible mounting options with 360° rotation
- Designed to accommodate phones with larger camera lens areas

PART NO	DESCRIPTION
31861	Charge 'n' Drive Qi2 Magnetic Wireless Car Charger

2-Port Mini Car Charger

- Charge up to 2 devices simultaneously in your car
- Equipped with 1 x USB-C PD 3.0 and 1 x USB-A QC 3.0 port
- Each port supports up to 30W when being used alone.
- Total maximum output is 24W (when 2 devices connected)
- Connects to car's lighter port and sits flush when connected
- Includes a fold-away swivel handle to easily remove from lighter socket

PART NO	DESCRIPTION
66681	2 Port 33W PD & QC Mini Car Charger

WIRELESS CHARGERS

3-in-1 Wireless Docking

- Wirelessly charge your phone, watch and earbuds simultaneously
- Up to 15W wireless charging for smart phones; Up to 5W wireless charging for earbuds; Up to 2.5W charging for smart watches.
- Retractable charging pad offers flexibility to fit various smartphone sizes
- Qi2 fast charging for compatible devices
- Magnetic dock ensures perfect charging position for phones
- Foldable, compact design ideal for easy transporting and travel

PART NO	DESCRIPTION
67036	3-in-1 Wireless Docking (Black Titanium)
67038	3-in-1 Wireless Docking (Black Desert)

USB WALL CHARGERS

AC Chargers

- Compliant with Australia/New Zealand Electrical Safety Standards
- USB-A port supports 2.4A charging
- Smart IC - enhanced with a smart charging feature that detects the specifications of your connected device and supplies the best corresponding current

PART NO	DESCRIPTION
66590	USB Charger Single Port 2.4A

POWER BANKS

Charge 'n' Go Essentials Power Bank Magnetic Wireless

- 15W magnetic wireless charging and 35W USB-C PD fast charging via USB-C port
- 5,000 & 10,000mAh capacities to keep your devices powered through travel, events, or outdoor adventures
- Charge 2 devices simultaneously
- Includes a USB-C to USB-C cable and a magnetic metal ring

PART NO	DESCRIPTION
32225	Charge 'n' Go Essentials Power Bank Magnetic Wireless 5000mAh Black
32227	Charge 'n' Go Essentials Power Bank Magnetic Wireless 10000mAh Black

Charge'n'Go Power Bank with Stand

- 10,000mAh capacity - ample power for smartphones and more
- Integrated stand for hands-free viewing
- 15W magnetic wireless charging and 20W USB-C PD fast charging
- MagSafe compatible
- Bi-directional USB-C Port for charging in & out through a single port
- 6 essential protection systems for safer charging
- LED indicates how much power remains

PART NO	DESCRIPTION
32264	Charge'n'Go Power Bank Magnetic Wireless with Stand 10,000 mAh Black

Charge 'n' Go Power Bank with 2 Cables & Display

- 10,000mAh battery capacity for reliable, portable power on the go
- Charge up to four devices simultaneously (wired + wireless)
- Magnetic wireless charging: 15W for phones*, 5W for AirPods™, 2.5W for Apple Watch™
- 2 embedded USB-C® cables: C2 (22.5W max) and C3 (12W max)
- USB-C PD fast charging up to 22.5W
- MagSafe-compatible
- Built-in stand for hands-free viewing
- TFT display shows battery percentage and real-time charging status

PART NO	DESCRIPTION
32272	Charge 'n' Go Power Bank with 2 integrated cables and display

Charge 'n' Go 3-in-1 Foldable Power Bank

- 5,000mAh and 10,000mAh battery capacity options
- Charge up to 4 devices simultaneously (wired + wireless)
- Magnetic wireless charging: 15W for phones*, 3W for AirPods™, 2.5W for Apple Watch™
- USB-C PD fast charging up to 20W
- Foldable design for travel
- LED charging display

PART NO	DESCRIPTION
32294	Charge 'n' Go 3-in-1 Foldable Power Bank 5,000mAh
32295	Charge 'n' Go 3-in-1 Foldable Power Bank 10,000mAh

LITHIUM-POLYMER VS LITHIUM-ION: WHY VERBATIM CHOOSES THE SAFER BATTERY TECHNOLOGY

We all rely on portable power to stay connected, whether that's charging your phone on the go, powering up your tablet for study, or keeping your earbuds ready for a commute. But have you ever stopped to think about what's inside your power bank?

Most power banks use either Lithium-Ion (Li-Ion) or Lithium-Polymer (Li-Po) batteries. And while both are rechargeable lithium-based technologies, there are some key differences in safety, design, and performance that make Verbatim's Lithium-Polymer choice the smarter, safer option.

WHY LITHIUM-POLYMER IS THE SAFER CHOICE

Safety is the biggest advantage of Lithium-Polymer technology. Here's why:

- Reduced risk of overheating or swelling: Li-Po batteries use a stable polymer electrolyte, meaning less chance of chemical leakage or thermal runaway.
- No liquid electrolyte: unlike Li-Ion, Li-Po batteries don't contain flammable liquids, lowering the risk of explosion or fire.
- Built-in protection circuitry: all Verbatim power banks include safeguards against overcharging, overcurrent, and short-circuiting.

Whether it's in your backpack, car, or classroom, Verbatim's Lithium-Polymer power banks are designed for peace of mind every time you charge.

## SLIMMER, LIGHTER, AND SMARTER DESIGN

Because Lithium-Polymer cells are flexible and lightweight, they can be moulded into thinner shapes. That's why Verbatim's Charge'n'Go Power Banks are compact enough to slip easily into a pocket or handbag without adding extra bulk. This makes them ideal for:

- Students and teachers who need reliable power on the go
- Commuters and travellers packing light
- Professionals juggling multiple devices throughout the day

LONGER LIFESPAN AND CONSISTENT PERFORMANCE

Over time, all rechargeable batteries experience wear, but Lithium-Polymer cells degrade more slowly than traditional Lithium-Ion cells. They deliver consistent output across hundreds of charge cycles, meaning you'll enjoy longer-lasting performance and better overall value.

Verbatim has been powering everyday technology for decades. Every Charge'n'Go Power Bank is built with premium Lithium-Polymer cells, and intelligent protection circuits against overcharging and/or discharging, over current, short circuits and overheating. When it comes to safety and reliability, Verbatim simply doesn't compromise. Because life works better with Verbatim, no matter where you are or what you're doing. So, whether you're charging your smartphone, tablet, or wireless headphones, you can trust Verbatim to deliver reliable power every time.

MY FINDER DUAL

My Finder Dual Wireless

- Works with Apple Find My & Google Find Hub (Can only be actively paired with one device at a time.)
- Rechargeable battery – up to 3 months per charge
- Qi wireless charging – no disposable batteries (wireless charger not included)
- IP64 water & dust resistant for everyday durability
- Built-in buzzer to help locate items nearby
- NFC contact sharing if your item is found
- Compact design with integrated keyring hole
- No personal data stored on the device

PART NO	DESCRIPTION
30167	My Finder Dual Wireless – 1 pk
30210	My Finder Dual Wireless – 3 pk

My Finder Dual TSA Lock

- Works with Apple Find My & Google Find Hub (Can only be actively paired with one device at a time.)
- TSA-approved Travel Sentry® lock
- Accepted in 75+ countries and 750+ airports
- Rechargeable battery – up to 120 days per charge
- Secure 3-digit combination lock
- USB-C rechargeable – no batteries required
- Durable ABS body with braided stainless steel cable
- Designed for suitcases, backpacks and travel cases

PART NO	DESCRIPTION
30169	My Finder Dual TSA Lock
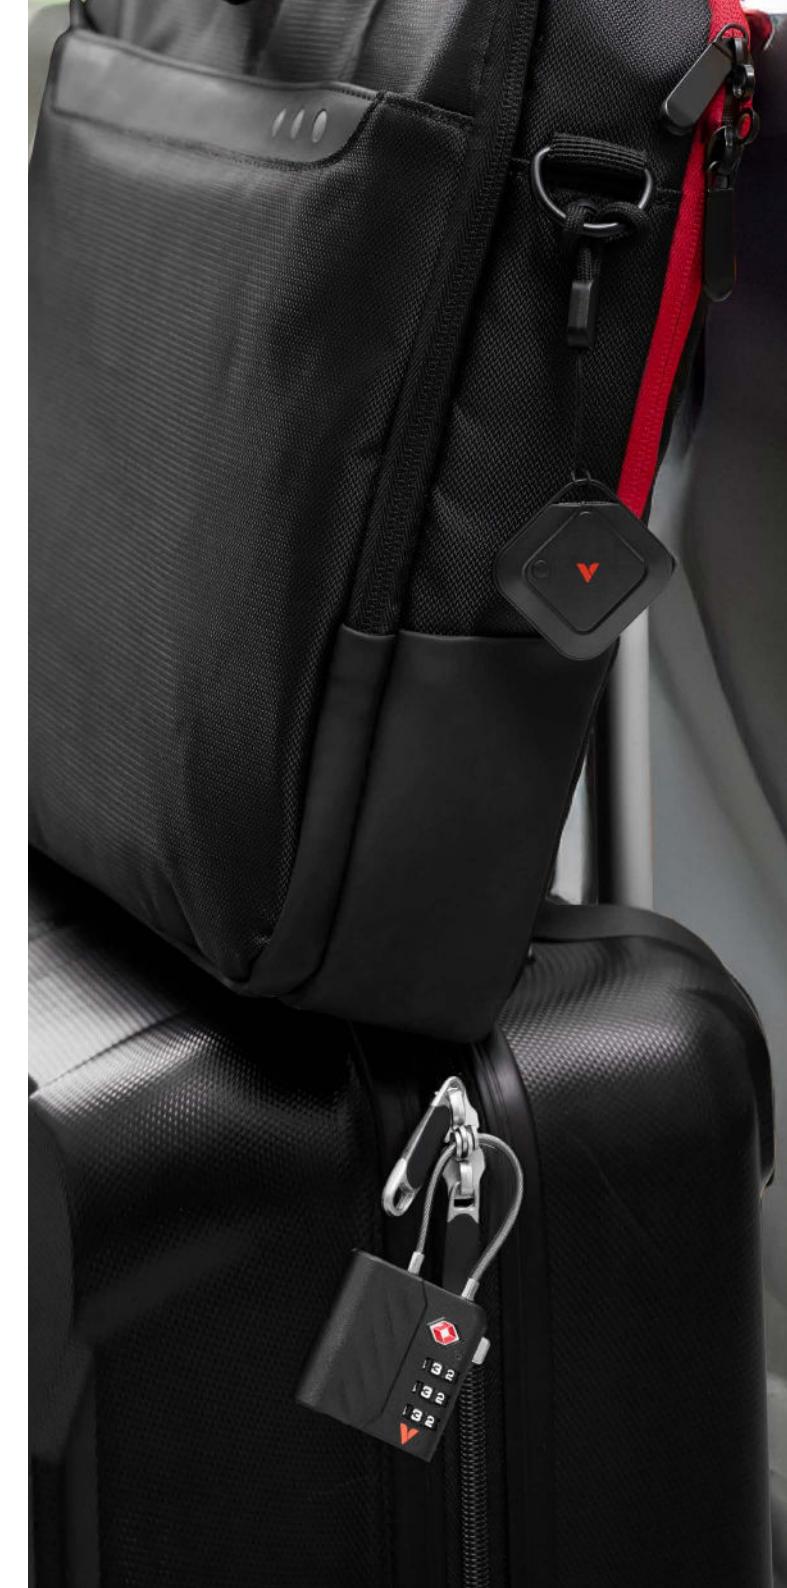

MY FINDER

My Finder Bluetooth Trackers

- Track personal items
- Works with Apple's Find My app
- Equipped with play prompt sound to assist in locating items in close range
- IP66 protection for water-resistance and dustproof durability
- NFC technology allows you to send your contact details to person who finds your lost device
- Up to 12 months battery power

PART NO	DESCRIPTION
66840	My Finder Bluetooth Tracker – Black

My Finder Card

- Track personal items
- Works with Apple's Find My app
- Discreet slimline design- ideal for wallets, passport folders and bag-tags
- Magnetic Wireless Charging- no need to replace batteries
- Up to 6 months usage between charging
- IP66 Protection provides water-resistance and dustproof durability

Colours available:

32140	My Finder Card Bluetooth Tracker – 2 pack Black/Silver

BACKING-UP AND ARCHIVING

BACKING-UP AND ARCHIVING

REGULAR BACK-UPS protect against both accidental or malicious data loss – anything from hardware faults and viruses to human error or theft - as they can be used to restore original data files.

Choosing the right media and back-up procedure depends on many elements:

- The amount of data being saved
- The perceived value of the data
- The levels of accepted risk
- The length of time you need to keep the data for

3-2-1 BACKUP RULE

Have at least Three copies of your data

Store the copies on at least two different Types of media

Keep at least one offsite backup copy

In addition to your primary data you should also have at least two more backups, which will significantly help reduce the risk of losing data. These could be physical and / or cloud solutions.

It is best practice to keep copies of your data on at least two different storage types, such as internal disk drives AND removable storage media (tapes, external hard drives, USB drives, SD-cards, CD's, DVDs).

It's obvious really; but it's not a good idea to keep your external storage device in the same room as your production storage.

If there is a fire, flood or burglary - you would lose all of your data.

BEST PROTECTION AGAINST ATTACK

ARCHIVE YOUR DATA

To be completely protected, a user or organisation needs to have data backed up and archived offline.

Any device that is attached to an attacked system or network is vulnerable. If your back up HDD is plugged into your laptop when a piece of ransomware software is installed, it will also be encrypted.

Having the most important data archived to optical media can eliminate this risk.

DVD & CD WRITERS

nero
Burn&Archive

Optical Discs are the most reliable media to archive your data on. Unfortunately more and more notebook vendors choose to leave the optical drive out of their notebooks in favour of slim designs. Verbatim has the solution with its range of external DVD/CD writers. Use them to create a back-up of all the important files that you don't want to lose - family pictures, videos, accounting documents etc. Compatible with DVDs and CDs.

Verbatim CD/DVD Writers include Nero Burn & Archive Software:

- CD, DVD burning software for all your videos, photos and precious documents.
- DiscSpan and SmartFit helps you to organise oversized files and archives among many discs - no need to split up files.
- SecurDisc Technology allows password protection to be added for extra security, and an electronic signature so that everyone knows you own the copyright.
- Nero MediaHome Standard brings all your media files together into a single location to help you easily organise and access all your photos, music, and videos. It helps you to burn the right playlist for any occasion; rip or copy your favourite CD; use different filters for the perfect photo; or put together slide shows – including photos, videos, and even film music in the background.
- Burn music videos directly onto audio CDs.
- Convert your audio CDs into the format of your choice - MP3, AAC, FLAC, or APE.
- Various streaming options, including the Nero Streaming Player App, allows you to show your movies, photos, slide shows, and other media files on various devices such as smartphones, tablets and Smart TVs.
- Relevant song titles, band names, and other details are automatically included.

External Slimline CD/DVD Writer

- USB 2.0 connection
- Store up to 8.5GB on a Double Layer DVD, up to 4.7GB on a standard DVD
- Compact and lightweight, ideally suited for use with a notebook or ultrabook
- Power provided by the USB port - no need to carry a bulky adapter
- Includes USB-A to Mini-B cable
- Includes Nero Burn & Archive Software*
- Fully compliant with MDISC™ archiving technology

PART NUMBER	DESCRIPTION
98938	External Slimline CD/DVD Writer

* Nero Burn & Archive is only suitable for Windows OS

** Playback software not included. To be purchased or downloaded separately
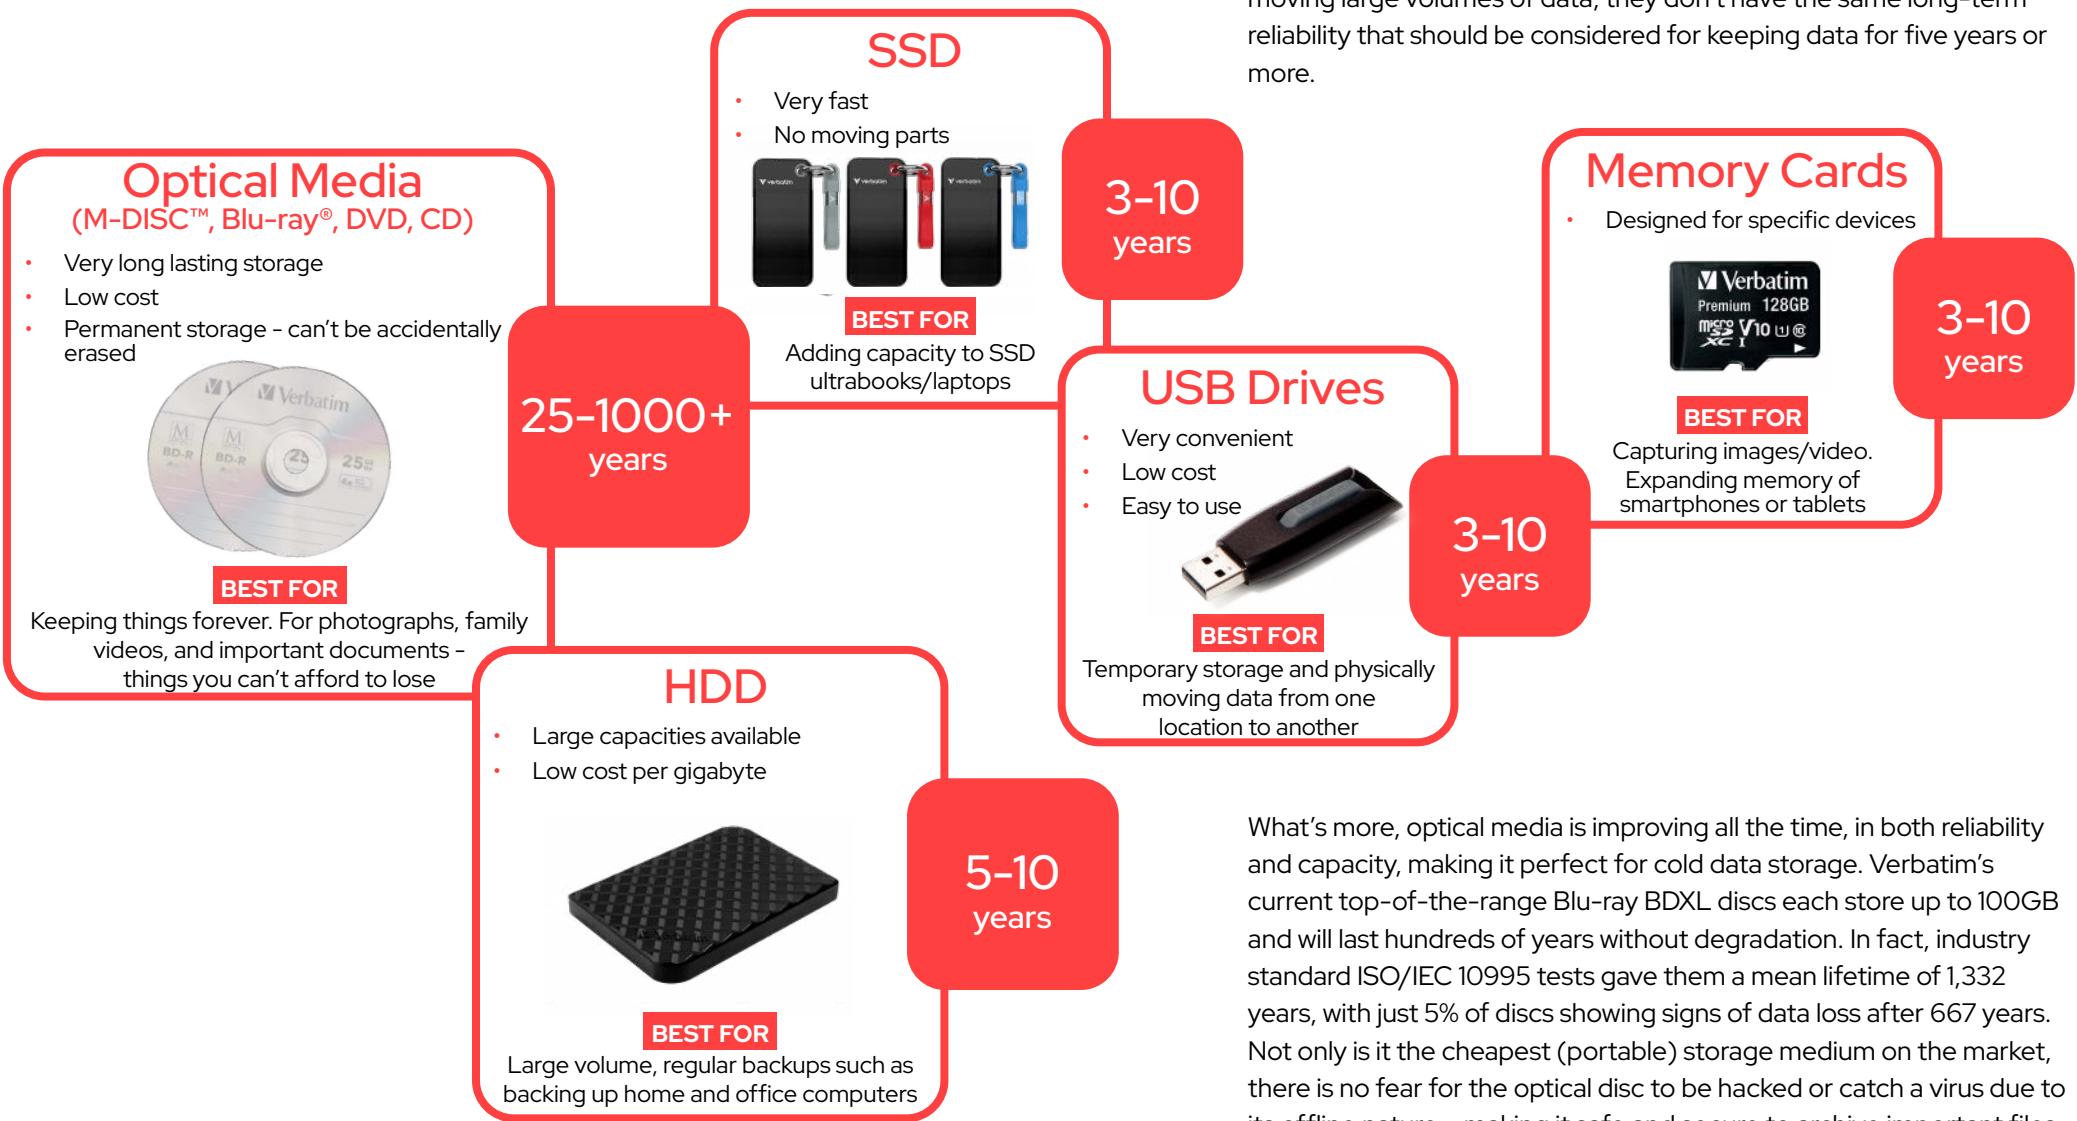

LIFETIME OF DATA STORAGE FORMATS

Optical media has the advantage that it is the ideal storage media designed for long term archival if it is stored in the right conditions. Whilst hard drives and flash memory products are great for storing and moving large volumes of data, they don't have the same long-term reliability that should be considered for keeping data for five years or more.

SSD

- Very fast
- No moving parts

3-10 years

BEST FOR

Adding capacity to SSD ultrabooks/laptops

Memory Cards

- Designed for specific devices

3-10 years

BEST FOR

Capturing images/video. Expanding memory of smartphones or tablets

Optical Media
(M-DISC™, Blu-ray®, DVD, CD)

- Very long lasting storage
- Low cost
- Permanent storage - can't be accidentally erased

25-1000+ years

BEST FOR

Keeping things forever. For photographs, family videos, and important documents - things you can't afford to lose

USB Drives

- Very convenient
- Low cost
- Easy to use

3-10 years

BEST FOR

Temporary storage and physically moving data from one location to another

HDD

- Large capacities available
- Low cost per gigabyte

5-10 years

BEST FOR

Large volume, regular backups such as backing up home and office computers

What's more, optical media is improving all the time, in both reliability and capacity, making it perfect for cold data storage. Verbatim's current top-of-the-range Blu-ray BDXL discs each store up to 100GB and will last hundreds of years without degradation. In fact, industry standard ISO/IEC 10995 tests gave them a mean lifetime of 1,332 years, with just 5% of discs showing signs of data loss after 667 years. Not only is it the cheapest (portable) storage medium on the market, there is no fear for the optical disc to be hacked or catch a virus due to its offline nature – making it safe and secure to archive important files and documents.

USB DRIVES

With a wide range of award-winning designs and features, Verbatim's selection of USB drives are perfect for storing and sharing data – safely and securely. The drives include features to satisfy everyone's needs including sliding mechanisms that protect the connector, metal enclosures, and USB-C and USB-A form factors.

UNDERSTANDING THE USB STANDARDS

WHAT'S THE DIFFERENCE BETWEEN USB 3.2 GEN 1, USB 3.1 GEN1 AND USB 3.0?

In essence, they are exactly the same.
With the introduction of faster USB speeds, the USB Implementers Forum (the trade group that defines USB standards) was required to reclassify some USB terms.

Maybe the easiest way to show this new naming structure is in this table:

Original name	First re-name	New Current name	Max speed
USB 3.0	USB 3.1 Gen 1	USB 3.2 Gen 1	5Gbps
USB 3.1	USB 3.1 Gen 2	USB 3.2 Gen 2	10Gbps
USB 3.2	n/a	USB 3.2 Gen 2x2	20Gbps

It's helpful to note that USB 3.2 devices are backwards compatible with all existing USB products, meaning that the newer USB products will work with older devices. The only difference is the throughput; two products with different USB capabilities will operate at the lower transfer speed.

TYPE A VS. C
In addition to offering different speeds, USB comes in different physical forms. The common USB Type-A ports are rectangular and require you to plug in your cable with the right side up. The newer USB Type-C® ports are smaller, oval-shaped and reversible in that they save you from needing to know which end is up.

EXTERNAL SSD

Still using a portable hard drive? Upgrade to an external SSD from Verbatim and experience lightning-fast performance, longer lifespan, and automatic backup options. Our External SSD range is designed to fit your lifestyle, whether you're working, creating, studying or travelling. Because life works better with Verbatim.

OVERVIEW

External solid state drives (SSDs) have quickly become the go-to solution for modern data storage, offering significantly faster performance, greater reliability, and improved durability compared to traditional external hard drives. Whether you're backing up precious memories, transferring large creative files, or carrying work on the go, SSDs provide a smarter way to store, move and protect your data.

Unlike traditional hard drives with moving parts, SSDs use flash memory, which allows them to read and write data at lightning speeds. This makes them ideal for tasks like editing 4K video, running applications from the drive, or transferring high-resolution files in seconds. They're also more shock-resistant and energy-efficient, making them perfect for life on the move.

At Verbatim, we offer a wide range of external SSDs to suit every lifestyle and budget—from compact everyday drives to professional-grade high-performance models.

No matter where you are or what you're doing, Verbatim SSDs have always got you covered.

TOP 10 BENEFITS OF EXTERNAL SSDS

1. **Faster Data Transfer:** Save time with high-speed file transfers.

2. **More Durable:** No moving parts means better resistance to shocks and drops.

3. **Slim & Lightweight:** Easily fits in your pocket, bag or laptop case.

4. **Quieter Operation:** Completely silent - no spinning disks or humming.

5. **Energy Efficient:** Draws less power, helping battery life on laptops.

6. **Better Longevity:** Designed to handle more read/write cycles than HDDs.

7. **Improved Security:** Many models support encryption and secure backup.

8. **More Reliable:** Less prone to mechanical failure than traditional hard drives.

9. **Cross-Platform Compatibility:** Works seamlessly across Windows, macOS and more.

10. **Versatile Use Cases:** Ideal for everything from basic backups to demanding professional tasks.

EXTERNAL SSD

Pocket SSD

- Pocket-sized SSD - fits in your back pocket
- Data transfer speeds of up to 1000MB/s
- USB-C® connection with USB 3.2 Gen 2 interface
- Convenient keyring and cable holder
- Compact, rugged and perfect for travel

Colours available:

HARD DRIVES

Verbatim hard drives feature Nero Backup software* that allows full system backup and restore functions. Each hard drive also includes Green Button Software, saving power when the drive is not in use as well as the Formatter Software that allows users to easily change the format of the drive from HFS+ to NTFS or FAT32, based on their own requirements. USB Rec&Play** allows your drive to act as a video recorder via USB, recording, playing back and even pausing live TV.

PORTABLE

Store 'n' Go USB 3.0 Hard Drive

- Stylish HDD for backing up desktops, notebooks & laptop computers
- USB 3.0 SuperSpeed interface
- USB plug 'n' play
- Software: Nero Backup*, Green Button, Hard Drive Easer, Hard
- Drive Info, Hard Drive Formatter
- USB Rec & Play**

USB REC PLAY
SUPPORTS USB RECORDING / PLAYBACK

53223	Store 'n' Go 4 TB USB 3.0 – Black

* Nero Backup Software is only suitable for Windows OS
** TV's in some countries may not have this feature

OPTICAL MEDIA

When drive manufacturers test their products, they use Verbatim media. It's the global No.1 for a reason – guaranteed quality!
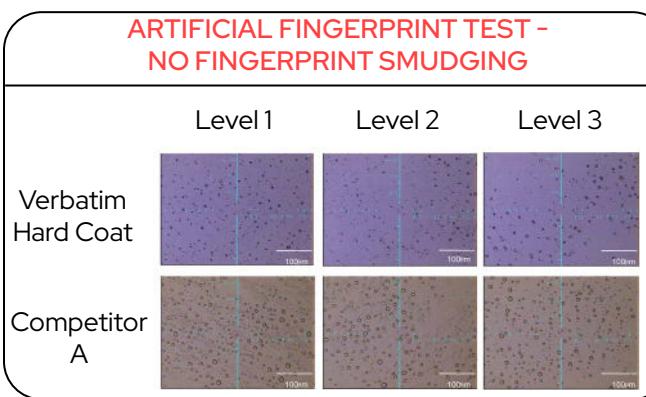

OPTICAL TECHNOLOGY

Core technologies, like our AZO recording layer, SERL and Hard Coat give Verbatim media technological advantages over competing products.

ADVANCED AZO DYE TECHNOLOGY

AZO is patented technology used exclusively by Verbatim. The AZO recording layer provides increased protection and reliability – it not only withstands high laser and rotation speeds, it also strongly resists UV light and maximises performance delivering a high quality recording that lasts for generations.

The recording dye is critical to CD and DVD performance; its molecular structure is designed to absorb the typical wavelength of a drive's laser. The peak absorption wavelength needs to be optimised so that the disc is compatible with a wide range of recording speeds. If the peak is too short, disc sensitivity is reduced, which causes high-speed recording problems; but if the wavelength peak is too long, this reduces the reflectivity of the recording layer and can create read errors.

Verbatim Hard Coat			
Competitor A			

To protect discs that are handled repeatedly, Verbatim provides a special Hard Coat layer that protects from fingerprints, dust, scratches, static and water.

The image on the left depicts a disc comparison for typical scratch resistance.
The image on the right shows how Verbatim's Hard Coat reduces fingerprint smudging, an essential feature for high quality recording.

Scratch proof

Dust proof

Water proof

SERL

SERL (Super Eutectic Recording Layer) is a special recording layer on Verbatim's CD-RW and DVD/RW media that ensures noise-free recording time and time again. With conventional rewriteable media, the recording layer deteriorates with every rewrite, meaning a decrease in quality. With Verbatim rewriteable media however, the recording layer is returned to perfect condition on every erasure, leaving a flawless disc for the next recording. SERL also enables this media to enjoy excellent archival stability and high-speed recording. This means users can enjoy perfect, high-speed data storage every time.

BLU-RAY

- High capacity for high definition (HD) video or long-term archiving
- Dual layer (DL) discs with two recording layers for 50GB storage
- BD-R XL – three recording layers for 100GB storage

KEY MILESTONES

1969
Verbatim incorporated as Information Terminals Corp. (ITC) April 28, 1969

1974
First 8" diskettes produced

1981
First monthly production of 1 million floppy disks

1985
Aquired by Eastman Kodak

1990
Mitsubishi Chemical acquired Verbatim and invested in the business

1993
Introduction of CD-ROM and CD-R disks, CD-R AZO Technology and SRAM cards

1995
Acquisitions of Laser Technologies and Ecotone. CD-R production started at MCI in Singapore

1999
Restructuring and establishment of the MKM/Verbatim Group. DVD-R & DVD-RW launched

2001
DVD+RW production started (first in the market)
Memory Cards launched

2002
DVD+R and CD-R Ultra Speed 24x products launched (first in the market)
Start of sales of USB Drives

2015
M-Disc collaboration. Introduction of 1000yr archival media

2014
Launch of PLA & ABS 3D printing filaments

2013
VxRGB LED lamps launched

2012
Cleansui Water Filters launched in Europe
SSD Launch

2011
VELVE OLED Lighting launched utilising technology from Mitsubishi Chemical Corp

2010
Launch of LED Lighting business utilising technology from Mitsubishi Chemical Corp

2009
Mitsubishi Kagaku Media Co. Ltd announces acquisition of Freecom B.V - extending global presence and position in external storage market

2008
Blu-ray Dual Layer, SDHC & MicroSDHC, Multimedia HDD, RAID HDD & Colour HDD launched

2007
Verbatim globalises corporate identity. Aquisition of SmartDisk and launch of External HDD Business

2004
Blu-ray BD-R/RE, DVD 16x and DVD+R Double Layer 8.5GB, CD-R 52x LightScribe launched (first in market for all)

2016
Operations centralised to new headquarters in Germany. ODD launched

2018
New range of security products introduced

2019
Verbatim celebrates its 50th anniversary

2020
Acquisition of Verbatim by CMC Magnetics

2021
Launch of specialist gaming brand: SureFire

2023
Introduction of Portable Monitors

2024
Exciting new branding launched at Computex

2025
New global website design launched across Europe, Asia Pacific and the Americas

VERBATIM'S COMMITMENT TO ETHICAL SOURCING & SUSTAINABILITY

At Verbatim, we believe that sustainability and corporate responsibility are not just talking points – they are actions that shape every decision we make. Our membership in leading industry associations ensures our products are sourced and packaged with care for people and the planet. Our key partnerships with SEDEX and APCO demonstrate how we go above and beyond to meet the ethical and environmental expectations of our customers.

ABOUT SEDEX

SEDEX is a global, not-for-profit membership organisation that supports responsible and ethical business practices across supply chains. Through its secure online platform, SEDEX enables companies to share data on labour standards, health and safety, environmental performance, and business ethics. By promoting transparency and accountability, it helps ensure fair treatment of workers and supports sustainable sourcing practices worldwide.

VERBATIM'S COMMITMENT

Through SEDEX and equivalent recognised programs, we:

- Connect suppliers and customers to share verified ethical trade information.
- Undergo independent SMETA (Sedex Members Ethical Trade Audit) assessments, or accept equivalent third-party ethical audits from accredited bodies such as BSI, Amfori, or RBA.
- Require all suppliers to provide valid, independent ethical audit reports, without exception.
- Expect every supplier to maintain internationally recognised management certifications such as ISO 9001 and/or ISO 14001.

THE VERBATIM DIFFERENCE

The vast majority of our technology suppliers are active members of SEDEX, with the remainder meeting equivalent high standards through other globally recognised audit programs. This ensures that every product we source is backed by robust social compliance, environmental responsibility, and ethical business practices, giving our customers complete confidence in the integrity of our supply chain.

ABOUT APCO

The Australian Packaging Covenant Organisation (APCO) is a co-regulatory, not-for-profit organisation leading the transition to a circular economy for packaging in Australia. By working with business, government, and industry, APCO sets national targets to ensure all packaging is reusable, recyclable, or compostable. Its Sustainable Packaging Guidelines (SPGs) and the Australasian Recycling Label (ARL) help businesses design packaging that reduces waste and supports responsible disposal.

VERBATIM'S COMMITMENT

As an active APCO member, Verbatim has embedded sustainability into every stage of our packaging design process. By 2025, we have:

- Fully aligned our packaging design process with APCO's Sustainable Packaging Guidelines.
- Applied the Australasian Recycling Label (ARL) to the vast majority of our product range, improving recycling clarity for consumers.
- Achieved 100% plastic-free packaging for all newly launched products.
- Removed soft plastics from our packaging across the business.
- Transitioned most packaging to FSC-certified cardboard and paperboard formats.
- Significantly increased the proportion of recyclable and responsibly sourced materials year-on-year.

THE VERBATIM DIFFERENCE

Our packaging goes beyond compliance – it delivers real environmental benefits. Customers can be confident they are choosing products designed for recyclability, free from unnecessary plastics, and contributing to a more circular economy.

WHY THIS MATTERS FOR YOU

By partnering with Verbatim, you're choosing a supplier that:

- Meets internationally recognised ethical sourcing and environmental management standards.
- Delivers full transparency on supplier audits and certifications.
- Is actively reducing packaging waste and improving recyclability at scale.
- Helps you meet your own ESG (Environmental, Social, Governance) goals and customer expectations.
